This is quite a talented charismatic bunch, all three members switch instruments through- out the night exploiting their versatility leaving a lasting impression. pressings locally. This single has just had a second coming so to speak, it was chosen to be on a compilation CD " No Hit Wonders" Vol. #1. In its 28 years of existence founder/leader David Lloyd has had to re-invent the group at times - case in point, bringing back Tony Blasting in 2013 (former 8 year veteran of the group) and in January 2016 Mark Rosenhahn was added to the fold. Mark was a former member of Route 66, with his infectious smile, energy and positive attitude he has been a welcome addition to the group. Both moves have been a breath of fresh air and solidified the band as one of the top acts in town. Don't be left out come experience Bleeding Hearts live and you be the judge.
