

The Barnstorm Band consists of 5 experienced musicians all with unique musical backgrounds that have formed this cohesive ensemble. The band prides itself with strong lead female/male vocals and harmonies. We cover the current country artists from Jason Aldean, Miranda Lambert, Kenny Chesney, Keith Urban and Dierks Bentley to the most requested classics like Reba Mc Entire, Tracy Lawrence, and Shania Twain. Some of the best compliments we get are "No other country band plays this song! Thank you!" and "You're one of the few bands who plays music we can dance to!" (We love our WNY country dance crowd!)
